

Eligible Client Populations and Demographics

The mission of the NAP is to implement neurofeedback within our existing healthcare system, with particular concern for agencies working with the underserved.

Therefore, to be eligible to join the NAP, at least 80% of your agency's clients must be classifiable as low-income, Medicaid-eligible, or representing underserved or hard-to-serve populations. View our list of client populations that typically fall into these categories.

- At-risk children and/or children with mental, emotional or behavior disorder
- Autism spectrum/Developmental Disabilities
- Domestic violence
- Drug court
- Foster care
- Homeless/Unhoused Individuals
- Inmates recently released
- Incarcerated adults
- Juvenile justice
- Low-income
- Medicaid or Medicaid Eligible
- Military and veterans
- Pain clinic
- Physical and/or cognitive rehabilitation
- Racial or ethnic minorities
- Refugees
- Seniors and/or memory care
- Severely mentally ill
- Special Education
- Substance abuse

Other populations can be considered as underserved or hard-to-serve, so contact us at info@neurofeedbackadvocacyproject.com if you have questions about eligibility.
